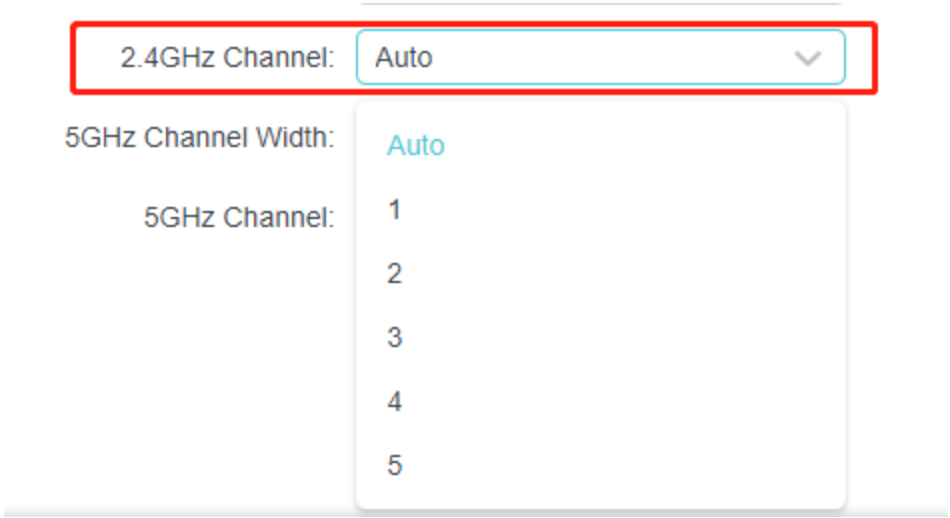
Channel:



Smart Connection:

Smart Connect allows each of the router's wireless bands to use the same wireless settings. The router can balance network demand and assign devices to the optimum band. It's recommended **to enable this option.**

Note: The 2.4G and 5G SSID will be the same if the smart connection is enabled.

Wireless Radio:

Disable this option will shut down the Wi-Fi feature.

Hidd SSID:

Your wireless name is invisible when this option is enabled.
