

Smart Security for Smart Living

HomeShield is a built-in service, available in all HomeShield routers and Deco Mesh products. It is a home networking protection kit that covers all security scenarios with its network security, parental controls, QoS, and comprehensive reports. With its security function, users' networks are well protected. Also, HomeShield's parental controls build a safer, cleaner internet to help users explore the online world. With HomeShield, a safer internet experience brings more happiness to your smart living.

Why HomeShield?

It Handles All Your Concerns

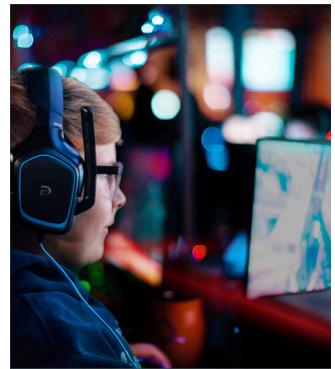

Private Info Leakage

Cyber Virus Intrusion

IoT Device Attacks

Internet Addiction

Protects Comprehensively

HomeShield protects comprehensively through its various features, which include network security and parental controls. Features like web protection and IoT protection benefit network security. For parental controls, parents can set YouTube restrictions*, SafeSearch*, and more to help them build safer and healthier online experiences.

Protects All Devices

With HomeShield, it protects all kinds of home network devices, including phones, computers, TVs, game consoles, and other IoT devices. Simply configure the gateway and achieve whole home network security. It identifies all your devices and immediately begins monitoring their security performance once they join the network.

Chat Now

Protects Everywhere

HomeShield covers all security scenarios, from indoor to outdoor, maintaining network security and device security anytime anywhere. Mobile devices remain secure, and your kids stay under parental control on the go. This takes HomeShield to a whole new level.

Network Security, 100% Safeguard

HomeShield provides comprehensive security protection. Simply configure the gateway and achieve whole home network security. HomeShield examines your network by scanning and identifying potential risks, thus improving your network security.

Web Protection

Web Protection blocks access to malicious websites to avoid dangerous links and personal information disclosure.

Intrusion Prevention

Real-Time IoT Protection

Parental Controls, Protect Your Kids and Maintain Healthy Digital Habits

Age-level filters and online time limits provide your family with personalized and appropriate internet access. With a detailed report of your home network, you can check the sites your children visit and how much time they spend on each. It's a great way to know your children are safe while they're having fun online.

User Profiles by Age

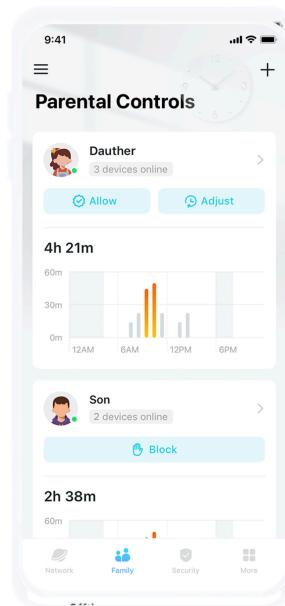

Easily set a profile for each family member based on age and set custom time limits and online time allowances. Assign devices to profiles so rules extend to individual devices as well as family members.

App Blocking*

Web Filtering

YouTube Restrictions*

SafeSearch[△]

Time Management

Ensures your family maintains healthy digital habits by setting time schedules and granting extra online time when necessary.

Chat Now

The screenshots illustrate the HomeShield app's features:

- Bedtime:** Set "No Internet" Bedtime to make sure your kids have a full night's sleep. Options include Off, Every Day, Weekdays & Weekends (selected), and Custom Days. A schedule shows Weekdays from 20:00 to 08:00 and Weekends from Off to Off.
- Time Limits:** Set limits to how much time your kids spend online every day. Options include No Limits, Every Day (selected), Weekdays & Weekends, and Custom Days. A schedule shows Every Day from 0h to 4h.
- Offtime:** Schedule times when your kids cannot surf the internet to cut out distractions. Options include AM and PM. AM shows 10:00AM-10:30AM. PM shows 9:00-10:00.
- Time Rewards:** Adjust Today's Allowed Time. It shows 9m Used and 2h Limit. Remaining Allowed Time: 1 hour 51 minutes. Options: -0.5 hours (0.5 hours selected), 1 hour (1 hour selected), and 2 hours. No limits for today. A Confirm button is at the bottom.

Maintain Protection Away from Home

Unlike most network security services that only work at home, HomeShield maintains its safeguards away from home. With the device security app and our exclusive KidShield app, mobile devices remain secure and under parental control on the go. This takes HomeShield to a higher level of comprehensive protection.

KidShield, Ensure Your Kids' Safety On-the-Go

Unlike most network security services that only work at home, HomeShield maintains its safeguards away from home. Through KidShield App, your little ones stay digitally protected away from home, even if they are not connected to your home WiFi.

Keep Track of Locations

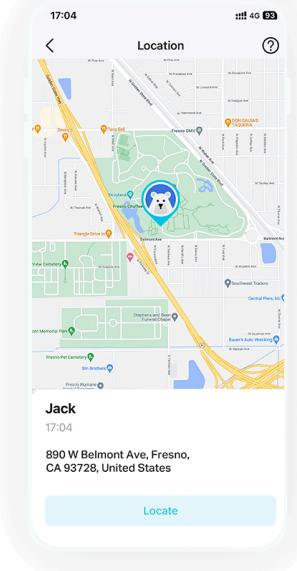

Worried that your kids are secretly going somewhere like internet cafés or amusement parks? Or even skipping classes? Location tracker allows parents to monitor their kids' real-time GPS locations. What's more, parents can set geofencing and get alerts when kids are away from the set boundary.

Payment Management
